Compton Parish Council – Objection to Application 26/00261/RESMAJ

Institute For Animal Health, High Street, Compton

Compton Parish Council wishes to provide the following new and ongoing operational relevant to the foul water network serving Compton.

Ongoing tankering at Aldworth Road Pumping Station 4th-9th April 2026

The Parish Council has recorded an ongoing tankering operation at the Aldworth Road pumping station. This activity began on or before 4th April 2026 and is continuing as of 9th April 2026.

- 4th April 2026 - Photographs show tankers in operation at the pumping station, with barriers in place and visible surcharge residue on the carriageway.
- 9th April 2026 - Further photographs show two tankers still on site, confirming that the intervention has not concluded and the network remains under active management.

These images demonstrate that the foul water network is **currently unable to cope with existing flows** and requires continuous mitigation to prevent surcharging.

Copies of the photographs are provided in Appendix 1.

Appendix 1 – Photographic Evidence

Figure 1: Tanker operating at Aldworth Road pumping station, 4th April 2026

Figure 2: Evidence of sewer surcharging on Aldworth Road, adjacent to the Pumping Station, 4th April 2026

Figure 3: Evidence of surcharge residue on Aldworth Road adjacent to the pumping station, 4th April 2026.

Figure 4: Two tankers stationed at Aldworth Road pumping station during ongoing network management, 9th April 2026.
